Embedding with the Afghan National Army in Zabul

By SWJ Editors

CAAT in Support of Transition: Embedding with the Afghan National Army in Zabul by the Counterinsurgency Advisory & Assistance Team, International Security Assistance Force, is a March 2011 report that is highly recommended reading for those in country (or out of) and able to access it through official channels. Our apologies here at SWJ for removing it as the copy we received, while marked unclassified and with no distribution caveats / restrictions, had not yet been approved for public release.
